ABOUT ME

I am a 20 year old student on my 3th bachelor's degree in Industrial IT. I discover the IT world when I was in secondary school, after I go in a technician school to learn it and use my knowledge. I liked to repair all IT stuff, and work in the school's network. But for me, I didn't learn enough, so I decide to go in a high school.
I am in possession of B licence.

PROFESSIONAL EXPERIENCE

4 YEARS DURING THE HOLIDAY

STUDENT, AT WELL-PUMPS

As a student, I worked in stock management and on simple-to-use machines such as magnetic spot welders, hydraulic presses and metal cutting.

CERTIFICATION

2021-IN PROGRESS

BACHELOR'S DEGREE IN INDUSTRIAL IT, AT UNIVERSITY COLLEGE IN HELHA
CHARLEROI

2019-2021

- Embedded system
- Automatisation programming
- office suite
- Fast learning
- Team working
- Versatile
- Logical spirit

LANGUAGES

- English B1 level (wallangue.be)
- French native language

ACTIVITY

My passions are often related to IT, such as new technologies, 3D printing, simulation games and video games.

I was also in charge of an internal event at the school called "HELHan", which is a "Lan party" where HELHa students meet, play games and get to know each other.

I am also a participant in this year's "Worldskills", in the field of industry 4.0, to develop my skills and all other qualities.
